He added that he is unable to support the bill or moving forward with the trail project because of his continued safety concerns

Alderman Frautschi stated that the matter before the Board is to validate calculations that were submitted to St. Louis County and must be completed regardless of the project's future. She recommended that a group be formed to review the ongoing project and added that additional costs will be forthcoming.

Diana Hoffmann, 13309 Manor Hill, encouraged the Board to return the project to its original state while taking time to consider the safety issues and viability of easement acquisition. A written copy of said comments was submitted and is attached hereto and made a part of these minutes.

Paul Petruska, 1653 Featherstone Drive, expressed support for the additional work to be completed with Bill No. 19-40 as a necessity for St. Louis County's approval regardless of the project's future. He added that there is a lack of understanding surrounding the project that includes its history and what should ultimately be accomplished.

Charles Carey, 13573 Featherstone Drive, spoke in support of the project and the long term goal of connecting to Queeny Park. He noted that experts should be making technical decisions regarding placement, etc. and funds should be expended to make the project right.

Lynn Wright, 2478 White Stable, noted her support and echoed the comments previously made in support of the project.

Alderman Holman provided statistics regarding traffic safety in the area and noted that causes must also be considered. She explained that the Police Department responded to more than 8,000 total accidents city-wide during the previous four years. Alderman Frautschi moved for approval, seconded by Alderman Holman.

Sophia Baig, 12901 Topping Estates, noted her opposition to the installation of a trail or sidewalk along Topping Road. She expressed concerns relating to home proximity, land and noise pollution, safety issues and the current availability of alternative walking paths elsewhere in the City.

In response to Alderman Benigas, City Administrator Bob Shelton confirmed that approval of this Resolution does not move the project forward or appropriate any funds; it only removes the grant application for phase two of the project.

Alderman Frautschi reported for the record that the Topping Road Task Force met and held three independent votes regarding this project. She noted the recommendations as follows 1) preference for a west side alignment given the ability to incorporate all subdivisions from Clayton to Pingry with no mid-block crossing, 2) preference for a change from an eight ft. asphalt trail to a five ft. concrete sidewalk, and 3) preference to rescind the grant application in favor of the City self-funding the project in order to complete it in a more timely manner with a net cost increase to the City of \$248,000.

In response to Alderman Reuter, City Administrator Bob Shelton noted that no additional costs for engineering or redesign are anticipated.

Lynn Wright, 2478 White Stable, encouraged the Board to remain unified in their support of this project particularly if grant funds will not be utilized for phase two. She added that the usage of a five ft. sidewalk will be different than if an eight ft. trail were constructed.

Alderman Holman noted that the Parks & Trails Commission primarily considers the potential connectivity that will be offered when discussing pedestrian pathways. She added that a subcommittee of the Commission will be established to bring forward recommendations regarding trails.

Alderman Reuter stated that he is supportive of trails when the projects as a whole make sense and are supported by the impacted residents.
