

# PORTABLE STORAGE UNITS AND DUMPSTER GUIDE

If you wish to place a storage unit (POD) or dumpster on your property (not in association with a building permit) certain requirements must be met:

## General Standards

- Placed on private property, not on the street or sidewalk.
- Shall be located on a paved surface.
- Comply with all property setbacks, with the exception of the sideyard setback if that is where the driveway is located.
- A maximum of two (2) portable storage units or dumpsters at one time.
- Portable storage units shall be locked and secured unless loading or unloading.
- The placement of hazardous material in a portable storage is strictly prohibited

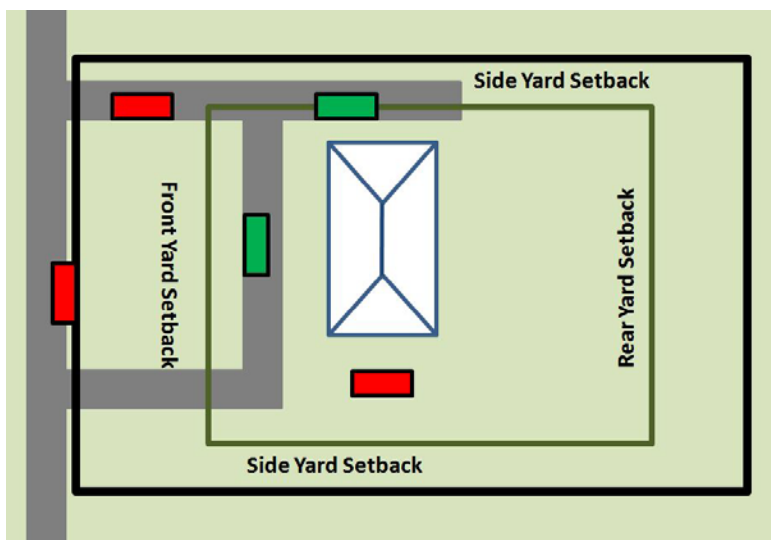

## Timing

- A portable storage unit or dumpster shall not be located upon any lot or property for more than **fourteen (14) consecutive days** or on more than **three (3) occasions** in any **twelve (12) month period**, unless in conjunction with a valid building permit.

## Size

- The maximum size is 40 cubic yards or generally 22 feet in length, 8 feet in width and 8 feet in height.

## PLACEMENT EXAMPLES

# SIZE EXAMPLES

0.5 cubic yards

1 cubic yard

2 cubic yards

3 cubic yards

4 cubic yards

20 cubic yards (Most Common)

30 cubic yards

40 cubic yards

16L-8W-8H (largest POD)

20L-8W-8.5H (Largest realistic portable storage unit)
